Know your materials

It's pretty simple. Almost* all of our products are available to order in varying levels of eco-friendliness.

We've made this cool diagram to help you keep track and make the decision best for you.

*Certain products are an exception. Contact us for any queries.

For quick reference

RECYCLABLE

A mixture of tree-based paper as well as chemical-based plastic

BIODEGRADABLE & COMPOSTABLE

A mixture of tree-based paper as well as plant-based plastics

SUSTAINABLE & RENEWABLE

Highly sustainable and renewable paper alternatives

THE MAJORITY OF OUR PRODUCTS*

ARE AVAILABLE IN A COMBINATION OF THREE LEVELS OF ECO-FRIENDLINESS

LEVEL 1

RECYCLABLE

FSC® certified paper

Low density polyethylene (LDPE) lining

Polypropylene (PP)

Polyethylene Terephthalate (PET)

Plant Starch Material (PSM)

Keep an eye out for these marks

LEVEL 2

BIODEGRADABLE & COMPOSTABLE

FSC® certified paper

Polylactic acid (PLA)

Crystallized Polylactic acid (CPLA)

These options are 100% plant-based, even the colours are made from fruit and vegetable extracts

Keep an eye out for distinct Bio range logos

LEVEL 3

SUSTAINABLE & RENEWABLE

Bamboo materials

Birchwood materials

Sugarcane materials

Where possible, choose these paper alternatives in conjunction with level 1 or 2 for added love to our planet

Keep an eye out for this logo

MARINE-SAFE PRODUCTS

Presently, all above materials are not marine degradable and should not be disposed in the ocean.

CUPS

SINGLE WALL CUPS

FSC® certified Paper

Did you know? FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.

These are single layered hot cups made from sustainably sourced paper and are lined with food-safe LDPE.

- ✦ FSC® certified paper
- ✦ Food-safe thin LDPE lining
- ✦ Lids sold separately
